

REMARKS

Claims 26, 27-30, 47, and 49-52 have been indicated as allowed.

On page 2 of the Office Action, the disclosure is objected to because of informalities.

Primarily, Applicants would like to thank the Examiner for taking time to discuss the Application and the objection to the informalities. As discussed with the Examiner, replacement drawings were previously filed in response to the Office Action mailed November 17, 2004.

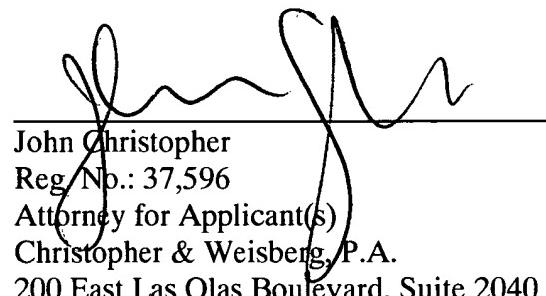

These replacement drawings included corrected reference numbers to coincide with the written description in the Application. In addition, Applicants would like to point out that different reference numbers are used for similar components in different drawings, i.e., the condenser shown in FIG. 4A is labeled as “302,” while the condenser shown in FIG. 6 is labeled “336.”

Nonetheless, the reference indicators provided for in the written description are accurately provided for in the individual figures. Accordingly, the Application is believed to be in condition for allowance.

The Examiner is encouraged to telephone the undersigned to discuss any matter that would expedite allowance of the present application.

Respectfully submitted,

Date: September 26, 2006

John Christopher
